## LAW AND ORDER ARE RESTORED TO HOLY LAND

#### British Military Authorities Re-Establish Civil Courts in Several Districts.

London.—(N. E. A.)—With the gradual flight of Turks and Germans from Palestine, law and order are again being restored, and inhabitants of the occupied territory are beginning to realize what good government is like.

England has issued a decree re-establishing civil courts in Palestine and assigning a court of appeals in Jerusalem. Two additional courts of the first instance will sit at Jerusalem and Jaffa with special courts in the other districts. It is the pian of the government to have the staff of the courts consist as far as possible of native inhabitants, assisted by British officers possessing legal experience and knowledge of Arabic.

The salaries of these local officials have been increased, doing away with any temptation of bribery, the source of evil in the Turkish administration. Local law will be administered unaltered, except for special military operations, when military decrees will of necessity.

cal law will be administered unaltered, except for special military operations, when military decrees will of necessity take precedence.

The work of religious courts will not be interfered with and Moslem religious courts will be allowed to do their work in their own districts.

Palestine, which now has a population somewhat less than 550,000, can support by agriculture an additional population of 300,000 under present conditions, and a second addition of 300,000 after irrigation dams and other construction works have been built.

Other improvements which Palestine

have been built.

Other improvements which Palestine sorely needs are better roads and more of them. Some few light narrow-gauge railways might also be constructed, and better ports provided. Halfa is at present the only fairly sood one. Jaffa, the next best, might, however, be rendered more secure.

#### **INFANTRY BEAT BACK** BRITISH, CLAIMS BERLIN

Berlin (via London), Wednesday, Aug. 21.—"Near Neuf Berquin and Merville and south of the Lys." says the official report from headquarters today. "Infantry detachments which had been left behind in the forefield of our new lines beat back several British thrusts and partial attacks."

The war office communication issued this evening says:

"In Flanders there have been partial engagoments west of Kemmel.

"North of the Ancre strong English attack launched on a wide front in the direction of Bapaume, broke down with heavy losses.

"A renewed French attempt to break through between the Oise and the Aisne failed."

failed.

"The attempts of the enemy to break through have been brought to a standstill on the first battle day with severe losses to him, notwithstanding his reckless bringing in of forces. Our battle aviators took an effective part in repelling the attacks.

"In nocturnal flights our bomb squadrons successfully attacked with bombs and machine gun fire the adversary who was densely concentrated in villages and on railroads and highways."

#### FERRIS TYPE VESSEL LAUNCHED AT MOBILE

Mobile, Ala., Aug. 22.—A cargo ves-sel of the Ferris type of 3,500 tons capacity, was launched today at the shipyard of the Mobile shipbuilding company. Shipbuilders from various gulf coast shippards witnessed the launching. This is the second vessel of the seagoing type to be launched here since July 1. ## SPLENDID PROMISE WHEAT HARVEST RELIEVES FRANCE

Perhaps Limitation on Bread Allowance Will Be Removed.

Paris, Wednesday, Aug. 21.—The splendid promise of the wheat harvest in France having given rise to a report that the limitation on the bread allowance would shortly be removed or that the rations would be considerably increased today caused the issuance of an official note warning that such reports were distinctly premature.

note warning that such reports were distinctly premature.

The note says that nothing with respect to bread can be arranged before the exact results of the harvest are known, and when the amount of wheat which can be placed at the disposal of France's allies is decided. Furthermore the note points out that the available tonnage must be devoted to the bringing to France of American troops now training in the United States and that any benefit from the present harvest will be employed to liberate tonnage. It adds that nothing would be more dangerous than to encourage the belief that there will be any very appreciable amelioration in the bread situation.

### SEVENTH HUN ARMY NOW CRUMBLING IN CONFLICT

Since July 15 Allies Have Attacked and Damaged Six German Forces.

Paris. Aug. 22.-The allies have damaged six German armies since July 15, and the British are now eating into the seventh with the spread of the battle northward and over a front of seventy miles. Whether the enemy is prepared or unprepared, allied efforts have had the same results and the Germans have been out-generaled and out-fought. The armies attacked and damaged in the past six weeks have been those of Gens. Von Eineman, Von Mudra, Von Boehn, Von Eben, Von Hutler and Von der Marwitz. The full designs of Marshal Foch are known only to himself and perform one

known only to himself and perhaps one or two others, but it is believed generally that his aim is not, as the Germans claim, to pierce their line, but to strike a succession of blows to cause the enemy irreplaceable losses in men and material, and to force him to make nore or less disastrous retreats. If that be the marshal's plan he is pursuing it with skill and unvarying suc-cess. Gen. Ludendorff is being forced to expend his effectives out of all proportion to his resources on a given sector of the front, after which another blow is struck home on another sector. At no place have the Germans apparently been strong enough to check the attack entirely.

Wednesday the German resistance was most desperate on the right of Gen. Mangin's army in the neighbor-hood of Bicuxy. If the French are able to reach the neighboring village of Juvigny, the salient marked by the villages of Juvigny, Osly and Pasiy would become untenable for Gen. Von Eben. who would be obliged to retreat beyond the Soissons-Coucy-le-Chateau road. The German situation there is unenviable enough at present, but would become still worse as the French

would become still worse as the French progressed. The Germans also would have to abandon the Vesic-Aisne line and go back to the Chemin-des-Dames. Military observers who are of an optimistic turn of mind are convinced that the Germans will end their defense by falling back to the old Findenburg line all along the front at no very distant date. While that may be so, the enemy shows no signs at present of doing so voluntarily and is fighting stubbornly and skilfully, yielding only when out-manoeuvered and out-fought.
